Protective Design Center

17 December 2012

Dear Sir or Madam:

Your name was on our one-time wait/contact list for our course entitled "Security Engineering." Unless notified, your name will be removed from the wait/contact list. You must contact our office to register. This letter does not confirm a seat in the class.

A course entitled "Security Engineering" is being offered 28 January-1 February 2013, at Humphreys Engineer Center near Springfield, Virginia. It is presented by the Corps of Engineers Protective Design Mandatory Center of Expertise. The cost of the course is \$800, which includes recently updated criteria and electronic reference materials. Due to these updates, the course duration has grown, with classes starting at 8:00 a.m. and concluding at approximately 5:00 p.m Monday through Thursday and approximately 2:00 p.m. on Friday. Student travel and per diem costs are not included.

The course addresses an interdisciplinary group on the joint development of design criteria and protective measures to mitigate criminal and terrorist threats to assets. The target audience includes individuals responsible for facility planning and security, including: engineers, planners, designers, law enforcement and provost marshal/security personnel, and antiterrorism officers. The class will prepare students to more effectively implement new force protection/antiterrorism directives and regulations. The course also addresses developing and improving communication between the security, antiterrorism, and engineering communities.

Registration information, a course synopsis and an Adobe fillable application form are attached. Please read all the information on the enclosed registration information sheet. Once payment is received, a confirmation letter, including directions and course information, will be sent to the student. Payment deadlines are listed on the registration information sheet. A partial list of area hotels is available upon request.

For registration, additional information, or if you wish to remain on the contact list, please contact Ms. Katherine Barnett at (402) 995-2393, or by e-mail at katherine.d.barnett@usace.army.mil.

Sincerely,

A handwritten signature in black ink, appearing to read "C. Betts".

Curt P. Betts, P.E.
